

A special invitation from  
**McKesson Specialty Oncology Services  
and  
MOASC**

Learn how to achieve clear, concise, practice-level reimbursement analyses to help improve your bottom line and confidentially benchmark your financial performance against similar practices. Join us for a Web demo to see how TotalView™ will help your practice better understand claims and remittance data to maximize reimbursement for procedures performed at your facility.

**Total View:**

Making Reimbursement More Intelligent

**Tuesday, September 11th  
12pm, Pacific Time**

or

**Wednesday, September 19<sup>th</sup>  
1pm, Pacific Time**

**About Total View**

TotalView is a secure, Web-based reimbursement management solution that captures billing and remittance data filed electronically, providing practices with powerful tools and reports to increase revenue and improve productivity. TotalView is simple to install and works alongside any practice management system software.

**RSVP**

Take advantage of this opportunity to see a web demo of TotalView as you look for ways to maximize reimbursement in your practice. Please RSVP with your name, your practice's name, and which date you plan to call in for the demo to Regina Murphy at [regina.murphy@mckesson.com](mailto:regina.murphy@mckesson.com).
