

Molecular Diagnostics In Non-Small Cell Lung Cancer

Lung Cancer Webinar Series

May 25, 2022

6:00pm- PDT

Description:

A lively discussion on Molecular Diagnostics In Non-Small Cell Lung Cancer.

This event is part of our virtual Lung Webinar Series - monthly, 60-minute, educational webinars on updates in clinical practice, research & development, technology & drug advancements in the treatment of Lung Cancer.

This will be a great opportunity to learn from key opinion leaders along with engaging in professional exchange of ideas.

Moderator:

Hatim Husain, M.D.

Associate Professor in the Department of Medicine,
UC San Diego

Panelists:

Olivier Harismendy, M.D
Adjunct Professor, Medicine
University of California San Diego

Karen Reckamp, M.D., MS
Director, Division of Medical Oncology
Associate Director, Clinical Research
Cedars-Sinai Cancer

Target Audience:

This educational activity is directed toward medical oncologists, nurses, nurse practitioners, physician assistants, and other professionals with an interest in hematology/oncology.

Benefits of Attending:

- Submit questions and cases for discussion in the field;
- Hear the latest clinical trial data and apply it to your patients; and
- Consider real-world scenarios and how to mitigate barriers to treatment.
